

LL. B. – Graduate studies

LL. B. – Common law

These programs offer several options:

- North American common law (the Juris Doctor degree enables you to take the New York Bar exam, during the summer session, or in any other Canadian province or territory with common law)
- Business law
- Information technology
- International law
- Law and labour

Conditions for admission

Completed a Bachelor's Degree in another discipline

For graduate program: Student must have accumulated at least 65 credits in a Bachelor's of Law program (35 credits from Block A, at least 21 credits from Block B) and have earned the requisite GPA (2.7 or 3.0, depending on the program).

Bachelor's of Law credits

For this program, you must earn 80 credits in a Bachelor's of Law program; this excludes course equivalencies (both required and optional) from previous studies in law that were applied for your admission to the Faculty.

Recommended approach

In short, for the Bachelor's of Law, you will obtain:

- 6 credits for previous studies
- 15 credits for previous graduates studies

You must also accumulate other 80 credits:

Year 1 (41 undergraduate credits)

Fall and Winter

- All classes in Block A (35 credits)

Summer

- 2 courses from Block B (6 credits)

Year 2 (39 undergraduate credits)

Fall and Winter

- 7 courses in Block B (21 credits)
- 1 course in Block C (3 credits)
- 1 course in Block D (3 credits)
- 1 course in Block K (3 credits)
- 2 optional courses (6 credits)

Summer

- 1 optional course (3 credits)

Year 3 (graduate courses only)

A diploma (LL. B.) will be awarded once you've completed 15 graduate credits.

Students must apply to the graduate program during the semester in which the minimum number of credits (that is, 65) has been earned. This is typically in the winter semester. The deadline for making that application is June 15. The application must be accompanied with proof of a completed Bachelor's Degree in another discipline.

The student will pursue graduate students in the Summer, Fall and Winter semesters.
